## HUGE AVALANCHE KILLS LABORERS

Snow, Mud and Rocks Crash Down in the Cascades.

FIVE BURIED UNDER DEBRIS

Disaster Occurs on the Mountain Side Near Tye on the Great Northern. Accident Will Block Traffic on the Main Line of the Railroad Indefinitely—Numerous Other Slides Add to Difficulties of Railway Operation.

Wenatchee, Wash., Jan. 9.—Five men were killed and two critically injured when a huge avalanche of snow, mud and rock crashed down the mountain side near Tye on the Great Northern railroad in the Cascades. The bodies of two of the dead have been found. Three are buried under fifty feet of debris and snow. All were white laborers employed in clearing blockades on the Great Northern near Summit.

The slide occurred near the scene of two slides last week and will block traffic on main line of Great Northern indefinitely. Northwestern Washington is completely cut off from the coast.

Snowslides, snowdrifts and falling telegraph poles have tied up all continental traffic over the Cascades on Great Northern, Northern Pacific and the St. Paul roads. For fifteen hours no through trains have been able to negotiate the "hump" over the mountains.

Northern Pacific rotary plow No. 9, the largest on the division, and two rail engines were buried in a slide at Borup on the west slope.

Fir trees, carried down the mountain side by the slides, are lying across the rails. The powerful wrecking crane, hampered by the drifting, blinding snow, is endeavoring to clear the way for the passage of Northern Pacific, St. Paul and Great Northern mail trains.

SNOWDRIFTS HIGH AS CARS

Army of Men Working to Keep Tracks in Cascades Clear.

Seattle, Jan. 9.—An army of men with big locomotives and rotaries struggled successfully to keep the drifting snow from burying the tracks of the Northern Pacific and St. Paul railways through the Cascade mountains.

The trains of these railroads pass between banks of snow higher than the tops of the cars.

The Great Northern ceased to operate its mountain division last week and cannot set a day for resumption of traffic. Trains meanwhile use the Northern Pacific tracks.

DIVES UNDER CAR TO DEATH

Sensational Suicide of Corporal Near Fort Snelling.

St. Paul, Jan. 9.—As Motorman Eldon Froling was running a Snelling-Minneapolis car at a moderate rate of speed toward the Fort Snelling bridge a soldier from the fort was walking toward the car. When the car came abreast of the man he suddenly turned and dived directly under the wheels. He was killed instantly. His neck was broken and one arm was cut off.

The soldier was Corporal Anthony Blackstrom, Company H, Ninth Infantry.

Corporal Blackstrom, according to several soldiers, had overstayed a leave of absence and had been searched for throughout St. Paul for several days by officers and soldiers from the post.

ENDORSE BURKE FOR CABINET

North Dakota Legislators Would See Him Secretary of Interior.

Bismarck, N. D., Jan. 9.—Upon his retirement from the position of governor of North Dakota, which he had held the last six years, Governor John Burke was endorsed by the legislature in joint session for a place in the cabinet of President Woodrow Wilson.

In a resolution presented by Senator W. C. McDowell it was recited that Governor Burke is in excellent position to know the needs of the West and the position of secretary of the interior is the one to which the Dakota solons believe he should be named.

FAULTS IN BANKING LAWS

Comptroller Murray Before Money Probe Committee.

Washington, Jan. 9.—Faults in the national banking laws were discussed before the house money trust committee by Lawrence O. Murray, comptroller of the currency. Mr. Murray spent more than three hours under examination by Samuel Untermyer, counsel for the committee, and agreed with many of the criticisms of the national bank act advanced by Mr. Untermyer. He asserted that the act as at present constituted is "ineffective and inadequate."

Mr. Murray furnished the committee such data from his office as President Taft had directed him to supply, which, however, was but a small part of the information the committee asked the comptroller to furnish.

### GENERAL BATES.

Says Rifle Practice Is a Clean, Healthy Sport.

BY CLINEDINST

### BATES ANSWERS HIS CRITICS

Defends Objects of National Rifle Association.

Washington, Jan. 9.—Lieutenant General John C. Bates, retiring president of the National Rifle Association of America, in an address at the annual meeting of the board of directors made vigorous answer to critics, who he said charged that the organization in its efforts to foster rifle practice among schoolboys were "in reality trying in an underhand way to promote the so called militarism, to create a bugaboo to peace advocates." He denied that such was the purpose of the association, and declared none of its members wish for war.

General Bates spoke of the vast benefit to be derived to the country from a military standpoint from rifle training and expressed the belief that it should be encouraged in the schools "if only for the fact that it is a clean, healthy sport."

### HUNDREDS OF PEOPLE DRIVEN FROM HOME

Serious Floods in Pennsylvania and West Virginia.

Pittsburg, Jan. 9.—Portions of Western Pennsylvania and West Virginia are facing a serious flood situation owing to a steady and rapid rise of the various rivers and small streams. A wide area of lowland is under water. Hundreds of persons have been driven from their homes, many buildings are partly flooded and several thousand men have been thrown out of work.

A stage of twenty-nine feet was registered here at the headwater of the Ohio river. The river is rising at the rate of six inches an hour.

### EKERN LOSES HIS POSITION

Wisconsin Governor Dismisses Insurance Commissioner.

Madison, Wis., Jan. 9.—Insurance Commissioner Herman Ekern was ousted from office for alleged neglect of duty in conformity with the statutes in organizing his department by Governor McGovern.

Dismissal followed a hearing in the governor's office, at which Mr. Ekern was cited to appear and which was cut short in the middle of the testimony by the governor.

The dismissal will be appealed by Ekern and his counsel as soon as they have had an opportunity to study the statutes and discover in what way to proceed.

The charge against Ekern was that he violated the law making his position appointive instead of elective through undue political activity in furthering the candidacy of L. L. Johnson for the speakership of the assembly.

### WILSON CONFERS ON TARIFF

Discusses Extra Session Plans With Hoke Smith and Gore.

Trenton, N. J., Jan. 9.—President Elect Wilson sat for three hours in his office here in conference with Senators Hoke Smith of Georgia and Thomas P. Gore of Oklahoma. Mr. Wilson declared that besides talking over a number of cabinet possibilities he had discussed a program for the extra session, including tariff and currency legislation, with the senators.

### Alaska Is Storm Swept.

Valdez, Alaska, Jan. 9.—The most severe storm in the history of this part of Alaska is raging. A furious gale is blowing here and a blizzard is sweeping the mountain passes.

### Two Killed in Vandavia Wreck.

Terre Haute, Ind., Jan. 9.—Clyde Smith, baggage man, of Terre Haute, and G. N. Rudd, a stockman of Marshall, Ill., were killed when train No. 10 on the Vandavia railroad collided with the rear end of train No. 8, at the station here. A mistake in signals is said to have caused the wreck.

## REFERENDUM AS A DEMOCRACY TEST

Bryan Declared Belief in It a Cardinal Principle.

IT WILL BE MUCH DISCUSSED

Senator Bailey Opposes Doctrine, and Ashurst Answers in Support, but His Effort Is Badly Timed—Question Involves Constitutional Construction, Therefore Is Attractive to Debaters.

By ARTHUR W. DUNN.

Washington, Jan. 9.—[Special.]—I once heard William J. Bryan announce to a group of distinguished Democrats that he would "drive every man out of the Democratic party who did not support the initiative and referendum." That was before he ran for president the last time, and he was not then making that an issue, but he said that it would in time become the cardinal principle of Democracy and when that time came he was going to "make it a test of Democracy."

I recalled Bryan's statement the day Senator Bailey made his speech against the initiative and referendum. Save on the subject of silver Bryan and Bailey never agreed upon any big questions, yet both held themselves to be sincere Democrats. As to making the initiative and referendum national, and that was what Bailey seemed to be opposing, there does not seem much possibility of any such change in the near future.

Makes a Good Topic. However, there is a certain amount of talk ahead in the senate, and the initiative and referendum makes a good topic. It involves constitutional construction, and the lawyers revel in such questions. Then the senators representing states which have adopted the initiative and referendum feel obliged to reply to Bailey's speech, so we may expect considerable oratory upon that subject during the next two months.

### New Senator's Mistake.

Senator Ashurst of Arizona was one of the men who felt called upon to defend the people's rule proposition which Bailey had attacked, but he made the mistake, due to newness in the senate, of trying to reply after Bailey had been talking four hours. The senators were tired, the big audience was exhausted, the newspaper men had something else to do, and the effort of the Arizona senator did not have a good effect. Ashurst is a good talker, and he might have made a better showing if he had bided his time. But he wanted to get in quick with his reply.

### Absent Senators.

Quite a number of senators are still out of Washington, and it is understood that they are at home fixing things around state legislatures. This applies particularly to senators who are up for re-election, though there are others who feel bound to stay around legislatures and advise their friends even when there is no senatorial election.

### Payne the Last.

Former Senator Warner of Missouri, who was a member of the house many years ago, says that after the 4th of March Sen. E. Payne of New York will be the only member of the house left of those who were members back in 1889. Cannon and Daize are the only other members of the present house who served with Warner. Senator Warner is now a member of the board of ordinance and fortifications.

### Violated Senate Etiquette.

While Senator Bailey was making his speech one of his friends from the house, a Texas man, too, sat on a back row and while listening intently forgot senatorial etiquette and elevated his foot on a senatorial desk in front of him. Nothing like that has happened in years. It was well that the watchful officials of the senate did not see him. No one can say what might have happened. He would certainly have been "warned."

### No Respect For Age.

Here we have been taught all our lives to have proper respect for the aged, but we see a lot of those younger senators in the Democratic party showing just the opposite instinct. Instead of according the aged senators all that they have heretofore had and taken as their right, these younger men purpose to treat them as equals. It may happen that the revolt in the senate will not equal the thunders in the index, but it has reached such proportions as to give the old timers quite a scare. They have been forced to appeal for harmony in the party in order to insure Democratic success in legislation. The younger men say that harmony should come by joining with them. The seniors say that harmony can be obtained only by following precedent.

### Touched Up Virginians.

Governor Wilson has always felt that his native state of Virginia rather slighted him when a majority of its delegates were opposed to him at Baltimore. He showed it in a remark at the Stoughton celebration. Congressman Hal Flood seized the occasion to hit Bryan a slap by asserting that Virginia was heartily for Wilson now and would be still prouder of him after his service of eight years. Two terms for Wilson are not contemplated by Bryan.

### A Queer Fish.

### DUCHESS OF CONNAUGHT ILL

Is Taken to Montreal Hospital on Special Train.

Montreal, Jan. 9.—The Duchess of Connaught, who, according to an official bulletin, is suffering from peritonitis, was brought here from Ottawa on a special train. The Duke of Connaught and Princess Patricia accompanied her. She was taken to the Royal Victoria hospital.

## ARMS POLICE WITH LONG RANGE RIFLES

Chicago Captain Takes Steps to Get Auto Bandits.

Chicago, Jan. 9.—Ten policemen, selected from the best marksmen on the force, were armed with long range rifles, piled in four taxicabs and instructed by Captain Halpin to scour the city in search of holdup men. He warned them to be on the lookout for motor car bandits, but told them also to watch for perpetrators of petty robberies.

The captain's action followed his conviction that in the four men arrested Sunday and Monday he had captured only one of the automobile bandits.

"If you meet motor car bandits whose cars are speedier than yours," the captain told his men, "use your rifles. Do not be afraid to shoot."

### PERIL IN STATES' RIGHTS

Pinchot Says Cry Is Stalking Horse for Attack on Conservation.

Washington, Jan. 9.—"One of the great battles in the fight for conservation is just ahead," declared Gifford Pinchot in an address at the annual meeting here of the American Forestry association.

He attacked a movement which, he said, is on foot to wipe out the old dividing line between state and national action in conserving natural resources and to turn the natural forests over to the states.

"Behind the stalking horse of states' rights," said Mr. Pinchot, "there is preparing a most dangerous attack on the whole policy of conservation. It is an attack in which men of high principle are fighting side by side with men whose principles live in their pockets, and for that reason it is doubly to be feared."

### HOMESICK BRIDE ENDS LIFE

Honeymoon of Woman Her First Trip From Home.

Sioux Falls, S. D., Jan. 9.—Believed to have lost her mind because of homesickness Mrs. Soodt, a bride of only seven weeks, ended her life here by swallowing some rat poison.

The woman was married about seven weeks ago in St. Paul. Soon afterward she came to Sioux Falls with her husband, who has been employed on the new government building. It was the first trip of the young woman away from home and for some time before her death she told acquaintances how homesick she was.

### ADMINISTRATOR TO PRISON

Fergus Falls Man, Short in Accounts, Given Indeterminate Sentence.

Fergus Falls, Minn., Jan. 9.—John C. Peterson, the professional administrator, who was short in his accounts with several estates, asked that he be allowed to plead guilty in district court. The court sentenced him to Stillwater for an indeterminate period. Mr. Peterson dealt in wheat and stocks and mixed trust funds with his own. He was a man of considerable means and turned over all of his property to his bondsmen some time ago.

## POWERS AGREE ON ADRIANOPLE

HOUSE MEMBERS FLAY ARCHBALD

Representative Sterling Scathingly Arraigns Judge.

IMPLORES HIS CONVICTION

Illinois Congressman at Impeachment Trial in Senate Says Commerce Court Jurist Is Unworthy of Public Office—Messrs. Webb of North Carolina, Howland of Ohio and Floyd of Arkansas Also Urge Conviction.

Washington, Jan. 9.—Judge Robert W. Archbald of the United States commerce court, sitting with his attorneys before the bar of the senate, heard his conduct and his integrity as a judge arraigned in bitter terms at the opening of the arguments that will terminate the impeachment case brought against him by the house of representatives for alleged misconduct in office.

Representative John A. Sterling of Illinois, summing up the case against Judge Archbald, declared that it showed him unworthy of public office and convicted him of a "system of conduct which he has carried on with the railroads so rank that it 'smells to heaven.'"

Representatives Webb of North Carolina, Howland of Ohio and Floyd of Arkansas, following Mr. Sterling, took up individual counts against Judge Archbald, dissected the evidence presented by the witnesses and reiterated in strong terms the opening charges of Mr. Sterling that the accused jurist had been proved unfit for further service upon the bench or further positions of public trust.

"The evil of the course of conduct that has been pursued by Judge Archbald is the effect it has upon the public mind," declared Representative Sterling. "The times are now pregnant with the sentiment that there is corruption in high places; justified in some instances and not justified in others. But in the case of Judge Archbald, from the conduct which we have proved against him, it seems to me that it puts on trial that part of the Constitution relating to impeachments."

### People Must Have Redress.

"If Judge Archbald is not convicted of these offenses and removed from office the verdict will be that the Constitution is at fault and that when a man commits offenses of the character he has committed the people have no redress.

"If the senate does convict Judge Archbald, if the Constitution in this case is complied with, as I believe it will be, the people will again turn to the old Constitution as their refuge and their harbor."

Mr. Sterling declared the specific charges against Judge Archbald, at least many of them, were not the single grounds upon which the house asked for his removal from office.

Reviewing Judge Archbald's correspondence with Attorney Helm Bruce of the Louisville and Nashville railroad, over a decision in which the commerce court ultimately gave the award to the railroad, he said:

"It is one fact which dovetails into this system of conduct which he has carried on with the railroads. I believe the inevitable and logical and reasonable conclusion is that Judge Archbald, by reason of this assistance from Helm Bruce, was able to convince the court that their first decision was wrong and compelled them to reverse it."

"We are impelled to the conclusion that Judge Archbald was determined—and I am inclined to think he was wrongfully determined—to have that case decided in favor of the Louisville and Nashville railroad."

### ADVANCE IN FRUIT PRICES

Due to the Severe Cold in Southern California.

Los Angeles, Jan. 9.—Twenty-five million dollars was the amount fixed as the loss sustained by citrus fruit growers in the three days' freeze. While this figure is not official Earl G. Dezell, assistant general manager of the California Fruit Growers' Exchange, said that accurate estimates of damage could not be made for several days, but \$25,000,000 is regarded as a conservative estimate.

Oranges advanced 50 cents a box on the Los Angeles wholesale market. This was a direct result of the freeze. Grape fruit, which also suffered heavily, went up 25 cents a box.

### Making Antiques.

### Hasn't Been Made.

"Do you give your wife all the money she wants?" "There isn't that much."—Washington Star.

Every man is occasionally what he ought to be perpetually.—Dr. Johnson.

Will Advise Turkey to Cede Noted Stronghold.

### AEGEAN ISLANDS AN ENIGMA

Triple Entente and Triple Alliance Take Different Views Regarding Disposition of Certain Islands Near the Dardanelles—Balkan Envoys Believe Adrianople Will Surrender in a Few Days.

Paris, Jan. 9.—It is learned here that the great powers practically have reached an agreement to advise Turkey to cede on the question of Adrianople, but the powers are not in harmony concerning the disposition of the Aegean islands. The triple entente—Great Britain, France and Russia—are inclined to back the desire of the allies for the cession of the islands to Greece, but the triple alliance—Germany, Austria and Italy—favor leaving to Turkey those islands near the Turkish coast, particularly those close to the Dardanelles.

London, Jan. 9.—The capitulation of Adrianople will, in the opinion of the Balkan plenipotentiaries, take place within a few days, either directly to the besieging forces or through European pressure. Pending some fresh development the Balkan delegates are keeping in closest touch with the ambassadors because they are aware that some of the questions they have most at heart depend almost entirely on the will of the powers.

Meanwhile the ambassadorial conference is doing little, hoping that the Adrianople difficulty will solve itself in some manner and thus make interference by the powers unnecessary. Moreover, the action of the ambassadors is hampered by the previous agreement that they must be unanimous in any decision requiring active interference.

Should the fall of Adrianople still be delayed now that the conference is suspended it might become imperative for Europe to intervene.

Some of those among the advanced sections of the allied delegates are of the opinion that now that they have paved the way for the expulsion of Turkey from Europe the powers ought to complete the work by removing Islam from Constantinople and transforming the Turkish capital into an autonomous city under European control and that they should study some system with the object of giving a real civilized government to Asia Minor.

### Predict Revolt in Asia Minor.

If such steps are not taken they declare that are long there will be a repetition in Asia Minor of what has just occurred in the Balkans.

The allies, especially the Servians and Montenegrins, are amused at the sensitiveness of the Turks displayed at the sudden suspension of the last sitting of the peace conference by the presiding officer, M. Novakovich, and their insistence that strict etiquette should be observed. The allies remark that Turkey seems to have forgotten the contemptuous manner in which she treated the Balkan states and their diplomatic representatives before the war.

One of the gravest aspects of the situation, as unbiased observers view it, is the failure of Austria to give any sign of demobilization in spite of Serbia's sacrifices for a peaceful solution, Serbia even going so far as to evacuate the Adriatic coast. Austria's action, in the opinion of some, is explained by the fact that Emperor Francis Joseph, owing to his advanced age, has practically abdicated the direction of affairs to the crown prince. The prince is entirely in the hands of the most reactionary elements, who are strongly opposed to the resurrection of the Serbian and Slav races, and, wishing to take advantage of Europe's desire to avoid a great war, are imposing unjust conditions both on Serbia and Montenegro.

### COACH DROPS TO STREET

Accident on Chicago and Oak Park Elevated Road.

Chicago, Jan. 9.—The rear coach of a Chicago and Oak Park elevated road train became derailed and fell from the elevated structure to the street.

Two men passengers who were in the car when it left the rails and bumped over the ties for twenty feet before plunging from the elevated structure, escaped injury by stepping into a forward car.

The train had discharged most of its load of several hundred passengers and was returning to the western terminal of the line when the accident occurred.

### He Didn't Know Art.

"Where did you get that marble statuette, my dear?" "Why, at Martin's. Isn't it lovely? And such a bargain! It was marked half off. Didn't you see the tag?" "Yes, but I thought the tag referred to the clothing."—Cleveland Plain Dealer.

Chicago Captain Takes Steps to Get Auto Bandits.

Chicago, Jan. 9.—Ten policemen, selected from the best marksmen on the force, were armed with long range rifles, piled in four taxicabs and instructed by Captain Halpin to scour the city in search of holdup men. He warned them to be on the lookout for motor car bandits, but told them also to watch for perpetrators of petty robberies.

The captain's action followed his conviction that in the four men arrested Sunday and Monday he had captured only one of the automobile bandits.

"If you meet motor car bandits whose cars are speedier than yours," the captain told his men, "use your rifles. Do not be afraid to shoot."

## PERIL IN STATES' RIGHTS

Pinchot Says Cry Is Stalking Horse for Attack on Conservation.

Washington, Jan. 9.—"One of the great battles in the fight for conservation is just ahead," declared Gifford Pinchot in an address at the annual meeting here of the American Forestry association.

He attacked a movement which, he said, is on foot to wipe out the old dividing line between state and national action in conserving natural resources and to turn the natural forests over to the states.

"Behind the stalking horse of states' rights," said Mr. Pinchot, "there is preparing a most dangerous attack on the whole policy of conservation. It is an attack in which men of high principle are fighting side by side with men whose principles live in their pockets, and for that reason it is doubly to be feared."

## HOMESICK BRIDE ENDS LIFE

Honeymoon of Woman Her First Trip From Home.

Sioux Falls, S. D., Jan. 9.—Believed to have lost her mind because of homesickness Mrs. Soodt, a bride of only seven weeks, ended her life here by swallowing some rat poison.

The woman was married about seven weeks ago in St. Paul. Soon afterward she came to Sioux Falls with her husband, who has been employed on the new government building. It was the first trip of the young woman away from home and for some time before her death she told acquaintances how homesick she was.

## ADMINISTRATOR TO PRISON

Fergus Falls Man, Short in Accounts, Given Indeterminate Sentence.

Fergus Falls, Minn., Jan. 9.—John C. Peterson, the professional administrator, who was short in his accounts with several estates, asked that he be allowed to plead guilty in district court. The court sentenced him to Stillwater for an indeterminate period. Mr. Peterson dealt in wheat and stocks and mixed trust funds with his own. He was a man of considerable means and turned over all of his property to his bondsmen some time ago.

# POWERS AGREE ON ADRIANOPLE

HOUSE MEMBERS FLAY ARCHBALD

Representative Sterling Scathingly Arraigns Judge.

## IMPLORES HIS CONVICTION

Illinois Congressman at Impeachment Trial in Senate Says Commerce

Court Jurist is Unworthy of Public Office—Messrs. Webb of North Carolina, Howland of Ohio and Floyd of Arkansas Also Urge Conviction.

Washington, Jan. 9.—Judge Robert W. Archbald of the United States commerce court, sitting with his attorneys before the bar of the senate, heard his conduct and his integrity as a judge arraigned in bitter terms at the opening of the arguments that will terminate the impeachment case brought against him by the house of representatives for alleged misconduct in office.

Representative John A. Sterling of Illinois, summing up the case against Judge Archbald, declared that it showed him unworthy of public office and convicted him of a "system of conduct which he has carried on with the railroads so rank that it 'smells to heaven.'"

Representatives Webb of North Carolina, Howland of Ohio and Floyd of Arkansas, following Mr. Sterling, took up individual counts against Judge Archbald, dissected the evidence presented by the witnesses and reiterated in strong terms the opening charges of Mr. Sterling that the accused jurist had been proved unfit for further service upon the bench or further positions of public trust.

"The evil of the course of conduct that has been pursued by Judge Archbald is the effect it has upon the public mind," declared Representative Sterling. "The times are now pregnant with the sentiment that there is corruption in high places; justified in some instances and not justified in others. But in the case of Judge Archbald, from the conduct which we have proved against him, it seems to me that it puts on trial that part of the Constitution relating to impeachment."

## People Must Have Redress.

"If Judge Archbald is not convicted of these offenses and removed from office the verdict will be that the Constitution is at fault and that when a man commits offenses of the character he has committed the people have no redress.

"If the senate does convict Judge Archbald, if the Constitution in this case is complied with, as I believe it will be, the people will again turn to the old Constitution as their refuge and their harbor."

Mr. Sterling declared the specific charges against Judge Archbald, at least many of them, were not the single grounds upon which the house asked for his removal from office.

Reviewing Judge Archbald's correspondence with Attorney Helm Bruce of the Louisville and Nashville railroad, over a decision in which the commerce court ultimately gave the award to the railroad, he said:

"It is one fact which dovetails into this system of conduct which he has carried on with the railroads. I believe the inevitable and logical and reasonable conclusion is that Judge Archbald, by reason of this assistance from Helm Bruce, was able to convince the court that their first decision was wrong and compelled them to reverse it."

## ADVANCE IN FRUIT PRICES

Due to the Severe Cold in Southern California.

Los Angeles, Jan. 9.—Twenty-five million dollars was the amount fixed as the loss sustained by citrus fruit growers in the three days' freeze. While this figure is not official Earl G. Dezell, assistant general manager of the California Fruit Growers' Exchange, said that accurate estimates of damage could not be made for several days, but \$25,000,000 is regarded as a conservative estimate.

Oranges advanced 50 cents a box on the Los Angeles wholesale market. This was a direct result of the freeze. Grape fruit, which also suffered heavily, went up 25 cents a box.

## AEGEAN ISLANDS AN ENIGMA

Triple Entente and Triple Alliance Take Different Views Regarding Disposition of Certain Islands Near the Dardanelles—Balkan Envoys Believe Adrianople Will Surrender in a Few Days.

Paris, Jan. 9.—It is learned here that the great powers practically have reached an agreement to advise Turkey to cede on the question of Adrianople, but the powers are not in harmony concerning the disposition of the Aegean islands. The triple entente—Great Britain, France and Russia—are inclined to back the desire of the allies for the cession of the islands to Greece, but the triple alliance—Germany, Austria and Italy—favor leaving to Turkey those islands near the Turkish coast, particularly those close to the Dardanelles.

## London, Jan. 9.—The capitulation of

Adrianople will, in the opinion of the Balkan plenipotentiaries, take place within a few days, either directly to the besieging forces or through European pressure. Pending some fresh development the Balkan delegates are keeping in closest touch with the ambassadors because they are aware that some of the questions they have most at heart depend almost entirely on the will of the powers.

Meanwhile the ambassadorial conference is doing little, hoping that the Adrianople difficulty will solve itself in some manner and thus make interference by the powers unnecessary. Moreover, the action of the ambassadors is hampered by the previous agreement that they must be unanimous in any decision requiring active interference.

Should the fall of Adrianople still be delayed now that the conference is suspended it might become imperative for Europe to intervene.

Some of those among the advanced sections of the allied delegates are of the opinion that now that they have paved the way for the expulsion of Turkey from Europe the powers ought to complete the work by removing Islam from Constantinople and transforming the Turkish capital into an autonomous city under European control and that they should study some system with the object of giving a real civilized government to Asia Minor.

## Predict Revolt in Asia Minor.

If such steps are not taken they declare that ere long there will be a repetition in Asia Minor of what has just occurred in the Balkans.

The allies, especially the Servians and Montenegrins, are amused at the sensitiveness of the Turks displayed at the sudden suspension of the last sitting of the peace conference by the presiding officer, M. Novakovich, and their insistence that strict etiquette should be observed. The allies remark that Turkey seems to have forgotten the contemptuous manner in which she treated the Balkan states and their diplomatic representatives before the war.

One of the gravest aspects of the situation, as unbiased observers view it, is the failure of Austria to give any sign of demobilization in spite of Serbia's sacrifices for a peaceful solution. Serbia even going so far as to evacuate the Adriatic coast. Austria's action, in the opinion of some, is explained by the fact that Emperor Francis Joseph, owing to his advanced age, has practically abdicated the direction of affairs to the crown prince. The prince is entirely in the hands of the most reactionary elements, who are strongly opposed to the resurrection of the Serbian and Slav races, and, wishing to take advantage of Europe's desire to avoid a great war, are imposing unjust conditions both on Serbia and Montenegro.

## COACH DROPS TO STREET

Accident on Chicago and Oak Park Elevated Road.

Chicago, Jan. 9.—The rear coach of a Chicago and Oak Park elevated road train became derailed and fell from the elevated structure to the street.

Two men passengers who were in the car when it left the rails and bumped over the ties for twenty feet before plunging from the elevated structure, escaped injury by stepping into a forward car.

The train had discharged most of its load of several hundred passengers and was returning to the western terminal of the line when the accident occurred.

"Where did you get that marble statuette, my dear?" "Why, at Martino's. Isn't it lovely? And such a bargain! It was marked half off. Didn't you see the tag?" "Yes, but I thought the tag referred to the clothing."—Cleveland Plain Dealer.

Upon an Englishman.  
It was years ago in Burma. The  
English government was having trou-  
ble with a certain princely recalcitrant  
named Boh Toh, "the most daring and  
enterprising of the Dacoits." A heavy  
price had been set upon the rebel's  
head, but still Boh Toh was cunningly  
elusive.  
At last, hard pressed, Boh Toh tried  
a new tack. He walked straight into  
the office of the commissioner.  
"I am Boh Toh," he said simply. "I  
have come to surrender."  
Exactly what he had counted on now  
happened. Fourteen years' experience  
with eastern subtlety and intrigue had  
taught the commissioner to be wary.  
"Thank you," he said. "We will now  
proceed to discover who you really are  
and what you really want. Tell me  
what do you expect to get out of this?"  
"Ten thousand rupees," said the Bo-  
quitty.

Train No. 2, All Northwestern Equipment, Detoured Via Brainerd This Morning

Owing to a slight wreck, a derailment of a freight car between Staples and Brainerd, the North Coast Limited, No. 2, all Northwestern equipment, was detoured through Brainerd to Little Falls on its way to St. Paul, thus losing little if any time.

The train of nine coaches with its bright yellow cars, something unusual for Brainerd, caused much interest and many people hurried to the depot to get a glimpse of the crack train of the northwest.

**SCHOOL BOARD MEETING**

Various Committees Report—Installation of Manual Training Deferred to Fall

All were present at the regular meeting of the school board except Messrs. Ilse and Baker. The minutes of the last regular meeting were read and approved.

Supt. W. C. Cobb read his monthly reports for December on the condition of the schools and the book room and they were accepted and placed on file.

The building committee asked for further time to make a report on the plans and specifications for the heating plant at the Harrison school. The committee on fuel, supplies and printing reported the purchase of a piano for the Whittier school. The teachers committee reported having engaged Miss Dahleen as a teacher to take the place of Miss Van Kleeck, resigned, at the Lowell school.

The finance committee reported checking up the books of the secretary and the quarterly report of the treasurer and finding them correct. The treasurer's report from August 1, 1912, to November 1, 1912, follows:

Serving on this finance committee are Messrs. George D. LaBar, R. J. Hartley and W. T. McCloskey.

The spring vacation week was set for the week preceding Easter, being from March 17 to 22.

The committee attending the Minnesota Educational association meeting December 5, 6 and 7 at St. Paul gave a verbal report. They paid particular attention to the subject of manual training in the schools, this being the principal object of the committee members who went to the meeting and from the information gathered it appears that manual training is rather a difficult problem. Involving large expenditures for installation and upkeep, for tuition and supplies. There is practically no end to the subject when once taken up as its ramifications extend in all possible directions. The board considered the matter thoroughly and then decided to defer action on the installation of manual training to next fall.

The janitors in all buildings were instructed to test fire hose and if any was defective to so report at once to the secretary. The December payroll of the janitors amounting to \$405 was allowed as well as the usual list of routine bills.

On motion the report was approved and placed of record with the clerk of court with a copy sent to the public examiner.

The report of the public examiner upon his examination of the county offices was read, and upon motion same was placed on file, and it was ordered that the suggestions be complied with.

Meeting adjourned until 2 o'clock p. m. All members present.

A committee from the Cuyuna Commercial club urged the board to help build a bridge across the narrows of Rabbit lake north of the village. A motion was made and carried to set aside \$1000 from the road and bridge fund for this purpose whenever the village of Cuyuna present plans for a bridge acceptable to the board.

Application of G. A. Raymond to transfer his liquor license at Ft. Ripley to Fred Gulnot was read and upon motion duly granted.

The board then proceeded to ballot for mining inspector for Crow Wing county. The 9th ballot resulted in three votes for August Swanson and he was therefore declared duly elected for a term of three years.

The following bids were opened for the county printing:

Brainerd Dispatch—Delinquent tax list 10 cents per description. Financial statement 55 cents per folio 3 insertions. Commissioners proceedings 25 cents per folio.

Brainerd Tribune—Delinquent tax list 11 cents per description. Financial statement 99 cents per folio 3 insertions. Commissioners proceedings 19 cents per folio.

Brainerd Journal Press—Delinquent tax list 11 cents per description. Financial statement 53 cents per folio, 3 insertions. Commissioners proceedings 28 cents per folio.

A resolution was adopted designating the Brainerd Weekly Dispatch to publish the delinquent tax list at the price named. On motion the financial statement was awarded to the Journal Press and the commissioners proceedings to the Brainerd Tribune. Miscellaneous advertising to be apportioned among the various papers of the county as occasion demands.

N. B. Hall was re-employed as janitor of the court house at a salary of \$45.00 per month.

The salary of the county attorney was fixed at \$1600 for 1913.

Clerk hire for county treasurer was placed at \$400.00 for the ensuing year.

Salary of the county superintendent of schools for 1913 was fixed at \$1300.

On motion \$250 was set aside from the county revenue fund to pay for express and postage, and \$200 as a county attorney's contingent fund.

A motion prevailed instructing the auditor to correspond with the highway commission in relation to getting more crushed rock from the state reformatory for use on roads.

It was reported that the Ft. Ripley bridge was in need of repairs the chairman appointed Commissioner Tucker as a committee to act with the Morrison county member to have the same repaired.

A motion was made and carried directing the assistant state engineer to file plans and specifications for work on state roads numbers one, three and four for the coming year. He was also instructed to make a survey of the proposed road at Cuyuna leading to the new bridge at the narrows.

Petition of Jacob M. Dordahl, Wm. J. Tutch, Celenre Bedore and Chas. Bedore to be set off with their lands from district No. 85 to school district No. 35 was duly granted and to include also the balance of section 15, township 135, range 28 and all of section 10.

The petition to vacate part of the old Mille Laes road in section 4, township 44, range 30 came up for final hearing. A motion was made to lay the question on the table until the next meeting and meanwhile correspond with the town board of Long lake to find out what provision had been made to establish a road for Gust Juline in case the old road be closed.

H. W. Linnemann appeared and suggested that an inspector should be appointed to oversee the work on the Crow Wing river bridge. A motion was made setting aside \$50.00 from the road and bridge fund for that purpose.

Commissioner Krech was authorized to have more rock placed around the piers at the Mississippi bridge on Laurel street.

A motion was made and carried approving the petition for state rural highway No. 16 leading east from Brainerd to the county line being part of the Moose lake road subject to the filing of a bond in the sum of \$500 by said petitioners.

Board adjourned until 8 o'clock p. m. All members present.

The bond of the First National bank of Brainerd, the Brainerd State bank, and the First National bank at Crosby as county depositaries were presented and duly approved. Bonds of the First National bank at Deerwood and the First State bank of Cuyuna were referred back for correction.

Bonds of the following county officers were approved and ordered placed on record with the register of deeds and then forwarded to the secretary of state:

S. R. Adair, county treasurer, in the sum of \$50,000.00  
F. J. Reid, sheriff, in the sum of \$5,000.00.

J. T. Sanborn, judge of probate, in the sum of \$1,000.

**The Well Known Emotion.**

Love was under discussion, and the time old "When is a man in love?" question came up. "A man is in love," said one, "when it gives him physical pain to tear up the slightest of her notes." "When"—but it would be violating confidences to tell other answers. One only, the best, we begged leave to print. "A man isn't really in love," said this romantically astute old gentleman, "until he begins to skip the descriptions of heroines in novels he reads, saying, 'What's the use of reading that? I'll have her looking like her and talking like her anyway!'"

One might almost do an Elizabethan poem on that.—Franklin P. Adams in the Metropolitan.
